

To be eligible for either Children's Medicaid or Child Health Plus, children must be under the age of 19 and be residents of New York State. Whether a child qualifies for Children's Medicaid or Child Health Plus depends on gross family income. Children who are not eligible for Medicaid can enroll in Child Health Plus if they don't already have health insurance and are not eligible for coverage under the public employees' state health benefits plan. Some children who were covered by employer-based health insurance within the past six months may be subject to a waiting period before they can be enrolled in Child Health Plus. Determining whether your child is subject to a waiting period will depend on your household income and the reason your child(ren) lost employer-based coverage.

<b>Child Health Plus</b>									
<b>2011 Family Contributions by Income and Household Size</b>									
<b>(For Applications Received by the CHPlus Health Plan On or After 4/1/2011)</b>
